LEADERSHIP DEVELOPMENT PROGRAMS

**LEADERS LEAD THE CULTURE. THE CULTURE LEADS THE STRATEGY.
IT IS THE KEY TO SUCCESS.**

Today's organisations need leaders who can communicate a clear vision, set and execute strategy and drive change through uncertain times. Our Leadership Programs help leaders develop their self-awareness, accountability and performance while supercharging their confidence and focus.

We tailor our leadership programs for **Executives, Emerging, Women and Senior Leaders**, addressing the unique challenges they face in their roles and providing the knowledge, skills and practical tools they need to thrive. The focus is on personal growth, communicating with impact and motivating others to achieve. Our framework is based on three core aspects of leadership:

Leading Self

This is foundational for effective leadership. Leaders must understand who they are, their strengths, weaknesses, values, and motivations to lead authentically.

Leading Others

Leaders must be skilled communicators, empower their team members and act as coaches and mentors, providing guidance, support, and constructive feedback to help team members reach their full potential.

Leading the Strategy and Culture

Leaders must have a clear vision for the future and the ability to inspire others to share and work towards that vision, leaving a leadership legacy.

SAFETY LEADERSHIP WORKSHOP

Delivered as either a one day or two day workshop, this program outlines the importance of safety leadership and explores neuroscience to equip leaders with the knowledge and skills needed to lead their teams towards a safer, more productive future. The outcome is to create a culture where safety is not just a set of rules and regulations to follow but a core value embedded in the company's DNA.

We look at understanding how the brain works, and how leaders can tailor their safety efforts to account for individual differences in risk perception, decision-making and motivation.

Participants discover how to combine effective leadership practices with an understanding of cognitive and emotional processes, to significantly improve safety outcomes and create a safer work environment.

LEADERSHIP CERTIFICATION

BECOME A VERIFIED LEADER

Together with QTAC and Veriskills, we issue leaders micro-credentials at the completion of our Programs. These micro-credentials are accepted by QTAC in:

- Initiative and Drive (Level 3)
- Communication (Level 3)
- Collaboration (Level 3)
- Empathy (Level 3)

Veriskills™, backed by QTAC's 40 years of experience in the assessment of formal and experiential learning, developed the Human Capability Framework to verify soft skills against a verified framework of abilities. Human Capabilities are soft skills that are not tied to technical competence and are what sets humans apart in this growing world of automation.

VeriSkills™ verifies courses against the framework to determine the human capability outcomes and their corresponding level of achievement attained on completion of various courses.

Micro-credentials are available for all of our programs (excluding self paced online courses without the coaching component).

CULTURAL TRANSFORMATION IS A 5-STAGE PROCESS:

ASSESSMENTS AND DIAGNOSTICS

We offer tools and customised pulse, engagement, self, cultural assessments and surveys that benefit your organisation, leaders and teams. These include:

LeadershipHQ 360 and Self Assessments

LeadershipHQ have developed a 360 and self assessment that forms a critical part of business and leadership success, and we can help you implement any findings and explain the metrics behind it. This tool can be customised at an extra cost.

PRISM Brain Mapping

PRISM is a revolutionary way of identifying people's behaviour preferences. It approaches human behaviour from the perspective of neuroscience rather than psychological theory. PRISM's reports show not only people's natural or instinctive behaviour preference but also the extent and how they modify or adapt their preference on occasions to respond to what you see as the demands of specific situations.

Social and Emotional Intelligence (SEIP)®

Measures the 26 competencies identified as critical in socially and emotionally intelligent individuals, teams and organisations. In addition to identifying areas of strength and areas for improvement, the report provides detailed descriptions of emotionally and socially intelligent behaviours, as well as extensive exercises for strengthening areas of improvement.

CliftonStrengths Assessment

The assessment measures your unique talents -- your natural patterns of thinking, feeling and behaving -- and categorizes them into the 34 CliftonStrengths themes. The pinpoint accuracy will leave you inspired and empowered with a newfound self-awareness.
